Journal of the
International Association for Mathematical Geology
Volume 13, 1981

Editorial Board

Editor-in-Chief: T. A. Jones (USA)
Deputy Editor: C. J. Mann (USA)
Book Review Editor: D. M. Lorenz (USA)

Associate Editors:
W. S. Bardsley (New Zealand)
C. F. Chung (Canada)
I. Clark (UK)

Editorial Correspondents

H. A. F. Chaves (Brazil)
A. C. Cook (Australia)
J. Crnicki (Yugoslavia)
A. J. Fabbri (Canada)
I. Hattori (Japan)
D. M. Hawkins (South Africa)
W. R. James (USA)
L. I. Malagrida (Spain)
A. K. Saha (India)
W. Scherer (Venezuela)
V. T. Vuched (Bulgaria)

Officers and Council Members of the IAMG

President: E. H. T. Whitten (USA)
Past President: D. F. Merriam (USA)
Vice President: D. G. Hawkins (South Africa)
Secretary General: J. C. Davis (USA)
Treasurers: R. B. McCammon (USA)
V. T. Vuched (Bulgaria)
Editor-in-Chief, Computers and Geosciences:
J. Cubitt (UK)
Editor-in-Chief, Journal: T. A. Jones (USA)

Council Members:
R. J. Howarth (UK)
A. C. Cook (Australia)
I. Djafarov (USSR)
A. B. Vistelius (USSR)
S. N. Sadooni (Iraq)
N. Nishiwaki (Japan)

Journal of the International Association for Mathematical Geology is published bimonthly for the International Association for Mathematical Geology by Plenum Publishing Corporation, 233 Spring Street, New York, N.Y. 10013. In 1981, Volume 13 (6 issues) will be published. Subscription orders should be addressed to the publisher. *Journal of the International Association for Mathematical Geology* is abstracted or indexed in Applied Mechanics Reviews, Chemical Abstracts, Computer and Information Systems Abstracts Journal, Current Contents, Geocom Bulletin, Geotitles Weekly, Mathematical Reviews, Petroleum Abstracts, Referativnyi Zhurnal, Science Citation Index, and Zentralblatt für Mathematik.
© 1981 Plenum Publishing Corporation. *Journal of the International Association for Mathematical Geology* participates in the program of Copyright Clearance Center, Inc. The appearance of a code line at the bottom of the first page of an article in this journal indicates the copyright owner's consent that copies of the article may be made for personal or internal use. However, this consent is given on the condition that the copier pay the stated per-copy fee through the Copyright Clearance Center, Inc. for all copying not explicitly permitted by Sections 107 or 108 of the U.S. Copyright Law. It does not extend to other kinds of copying, such as copying for general distribution, for advertising or promotional purposes, for creating new collective works, or for resale, nor to the reprinting of figures, tables, and text excerpts.

Subscription rates:
Volume 13, 1981 (6 issues) $120.00 (outside the U.S., $135.00). A special price is available to members of the Association.
Volume 14, 1982 (6 issues) $140.00 (outside the U.S., $157.00)

Second-class postage paid at New York, N.Y., and at additional mailing offices.

Printed in USA.

Journal of the International Association for Mathematical Geology

Volume 13, Number 1, February 1981

Contents

Spatial Variability of Flow Parameters in a Stratified Sand 1
Leslie Smith

Harmonic Analysis of Cephalopod Suture Patterns 23
Douglas J. Canfield and Robert L. Anstey

A Possible Continuum Theory for Densification and Liquefaction of Saturated Sand 37
Goodarz Ahmadi

Effect of Various Transformations on the Analysis of Percentage Data 53
J. C. Butler

Chi-Square Tests for Markov Chain Analysis 69
Richard N. Hiscott

SHORT NOTE

Workshop on Quantitative Stratigraphic Correlation Techniques: Ottawa, February 1980 81
F. P. Agterberg and F. M. Gradstein

Journal of the International Association for Mathematical Geology

Volume 13, Number 2, April 1981

Contents

Bottom Sediments of the Eastern Gulf of Mexico Examined with Traditional and Multivariate Statistical Methods 93
Larry J. Doyle and Peter H. Feldhausen

A Statistical Comparison of Various Source Formulations for Explosions and Earthquakes 119
G. R. Dargahi-Noubary

Analysis of Triaxial Ellipsoids: Their Shapes, Plane Sections, and Plane Projections 135
D. J. Gendzwill and M. R. Stauffer

Entropy in Markov Analysis of Late Paleozoic Cyclical Coal Measures of East Bokaro Basin, Bihar, India 153
Zahid A. Khan and Satyendra M. Casshyap

On Estimating the Parameters in Mixtures of Circular Normal Distributions 163
Barrie D. Spurr

A New Approach to Null Correlations of Proportions 175
J. Aitchison

Journal of the International Association for Mathematical Geology

Volume 13, Number 3, June 1981

Contents

EDITOR'S NOTE 191

Distinction Between Permian and Post-Permian Igneous Rocks in the Southern Sydney Basin, New South Wales, on the Basis of Major-Element Geochemistry 193
Paul F. Carr (Australia)

Morphometric Consistency with the Hausdorff-Besicovich Dimension 201
Alexander Woronow (USA)

A Generalization of Extended *Q*-Mode Factor Analysis to Data Matrices with Variable Row Sums 217
J. E. Klovan (Canada)

On Minimum Spanning Trees and the Intergradation of Clusters 225
Steven M. Warshauer (USA) and Richard Smosna (USA)

REVIEWS 237

ASSOCIATION ANNOUNCEMENTS

Fifth William Christian Krumbein Medallist: Andrei Borisovich Vistelius 243

The Fourth General Assembly of the International Association for Mathematical Geology 245

Statutes of the International Association for Mathematical Geology 253

By-Laws 257

Officers and Council of the IAMG (1980 to 1984) and Their Current Addresses 259

Journal of the International Association for Mathematical Geology

Volume 13, Number 4, August 1981

Contents

Estimating Quartz Fabrics from Piezoelectric Measurements 261
J. R. Bishop

Comparative Study of the Moment and Graphic Size Parameters of the Sediments of the Western Continental Shelf of India 291
N. H. Hashimi

Quantitative Shape Analysis: A Review 303
Malcolm W. Clark

A Geostatistical Approach to Predicting the Washability Characteristics of Coal in Situ 321
Margaret Armstrong

EXTENDED QMODEL—Objective Definition of External End Members in the Analysis of Mixtures 331
William E. Full, Robert Ehrlich, and J. E. Klovan

SHORT NOTES

Parameterizing Wave Heights in Simulation Models with Autocorrelated Rayleigh Distributed Variates 345
V. Chris Lakhan

A Relationship Between Sample Size and Accuracy of Species Richness Predictions 351
Pascal de Caprariis, Richard Lindemann, and Robert Haimes

The Structure of Paraequilibrium Aggregates 357
D. F. Watson

LETTER TO THE EDITOR

Barataria Bay Sediments as a Basis for Discussion of Typological Factor Analysis: A New Classification Method Applied to Geology 361
Peter H. Feldhausen and Syed A. Ali

ANNOUNCEMENTS 367

Journal of the International Association for Mathematical Geology

Volume 13, Number 5, October 1981

Contents

Introduction to the Special Issue on Statistics and the Earth Sciences 369
John H. Schuenemeyer

Application of the Buffon Needle Problem and its Extensions to Parallel-Line Search Sampling Scheme 371
C. F. Chung (Canada)

Target Search by Golden Weave 391
W. E. Sharp (USA)

Maximum Likelihood Estimates of the Size Distribution of North Sea Oil Fields 399
James L. Smith and Geoffrey L. Ward (USA)

Geostatistical Estimation of Parameters for Hydrologic Transport Modeling 415
P. G. Doctor and R. W. Nelson (USA)

Estimating Percentiles in Aerial Radiometric Data Using Normal and Lognormal Distributional Assumptions 429
Thomas R. Bement and Fredric L. Pirkle (USA)

A Distribution-Free Alternative to Least-Squares Regression and its Application to Rb/Sr Isochron Calculations 443
Raymond G. Vugrinovich (USA)

Variogram Models Must Be Positive-Definite 455
Margaret Armstrong and Romain Jabin (France)

On the Existence of Characteristic Shapes for Desert Dunes 461
F. J. Bloore (England)

LETTERS TO THE EDITOR

An Algebraic Method for Evaluating Angular Strain Rosettes: Comment 465
C. M. Griffiths (England)

An Algebraic Method for Evaluating Angular Strain Rosettes: Comment 467
Declan G. De Paor (Ireland)

An Algebraic Method for Evaluating Angular Strain Rosettes: Reply 469
Donal M. Ragan (USA)

Journal of the International Association for Mathematical Geology

Volume 13, Number 6, December 1981

Contents

On Statistical Models for Fission Track Counts 471
R. F. Galbraith

On Statistical Models for Fission Track Counts: Comment 479
Victor E. McGee and Noye M. Johnson

On Statistical Models for Fission Track Counts: Reply 485
R. F. Galbraith

A Probabilistic Approach to the Assessment of Uranium Resources 489
Kamal Golabi and Alan Lamont

A Least-Squares Method for Determining the Best-Fit Point Maximum, Great Circle, and Small Circle to Nondirectional Orientation Data 507
Neil S. Mancktelow

Asymmetry Analysis of Geologic Homologues on Both Sides of the Strait of Gibraltar 523
Richard A. Reyment

Discriminant Analysis Applied to Aerial Radiometric Data and Its Application to Uranium Favorability in South Texas 535
David A. Patterson, Fredric L. Pirkle, Mark E. Johnson, Thomas R. Bement, Newton K. Stablein, and C. Kay Jackson
